

REMARKS

Claims 1-8, 10-21, 23-34 and 36-39 are pending in the present application.

Independent claims 1, 14 and 27 have been amended to recite the feature of automatically sending information relating to the usage of the wireless communication device to a computer at a remote location by wireless transmission at a predetermined time, which is supported paragraph [0102] of the published patent application. This feature of the invention allows a business to collect and monitor the usage of several wireless devices, and is not disclosed or suggested in any of the art of record.

A prompt allowance and passage to issuance is earnestly solicited.

Dated: April 19, 2006

Respectfully submitted,
